Remarks

Tucked within a charming Gulf-side community of just 27 residences, this unique and rarely available townhouse on Siesta Key is in model condition and offers private access to one of the most celebrated beaches in the country. With 1,760 square feet of living space, the home features soaring two-story ceilings and abundant natural light throughout the main living areas. Head upstairs on the grand staircase to an additional bedroom plus a versatile loft space-currently used as a TV room and office-which could easily function as a third bedroom. The primary suite is conveniently located on the first floor and opens to a private enclosed sitting area. An updated kitchen with wood and glass cabinetry, natural stone countertops, stainless steel appliances, a spacious island flows into a casual dining area and living space, all finished with engineered hardwood floors, crown molding, and a neutral color palette. Two updated full bathrooms serve both levels, and laundry is located inside on the main floor. Additional features include built-in beverage refrigeration, hurricane shutters, and dedicated closets. Enjoy the private entry and an unheard of oversized garage with space for three vehicles adding loads of additional storage and convenience. The amount of storage is like living
